

About The Range

Combining the best of contemporary design and modern power functionality, the Tate Power Motion range, is sure to impress. Featuring a sleek, tailored profile, top soft track stitch detailing and tapered chrome legs that lend to a sophisticated, modern aesthetic. Integrated, power motion functionality allows you to unwind and relax in style, as you personalise your seating position to suit.

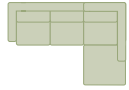

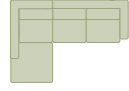

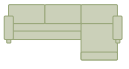

Designed with USB and USB-C charging capability, plus the advanced 'Home Button' technology that allows for the immediate return of any reclined position to a neutral 'home' position, each feature has been carefully considered to enhance your lounging experience.

How to measure

Get accurate measurements by referring to the below.
